

Tolga Osman Falay

— SOFTWARE ENGINEERING STUDENT / FULL STACK WEB - MOBILE DEVELOPER

PROFILE

Final-year Software Engineering student at Eastern Mediterranean University with a strong foundation in modern web development. Experienced in building responsive, user-focused interfaces with TypeScript and Next.js on the frontend, backed by Laravel on the backend. A fast learner and collaborative team member, eager to apply technical skills to real-world full stack projects.

EDUCATION

Eastern Mediterranean University

B.Sc. in Software Engineering

Senior Year · Ongoing

EXPERIENCE

Web Development & Software Development Intern

Near East Technology · July 2026 – September 2026

Gained hands-on experience across the full stack, delivering 4 projects (available on my portfolio, tolgaosman.com) – a Staff Leave Tracking System, an Inventory Management System, a Hotel Management System (for personnel) and a Hotel Website (for customers). All frontends were built with TypeScript and Next.js, with backends powered by Laravel.
